

Positive Cultural Leadership

4 Day Intensive

Transform and Lift Health and Safety Performance

SafetyCircle®

Overview

Over the past 12 years IPM Consulting has been intensively developing, testing and refining the “SafetyCircle” – an approach to achieving “Ultra-Reliable” safety.

We use safety culture improvement as a doorway to transforming to a positive overall organisational culture. Our approach follows the wisdom: “The context is decisive.”

This 4 day intensive (and associated tasks) will provide you with the detailed contextual pieces that enable the cultural transformation that SafetyCircle brings.

This exceptional professional development masterclass will enable you to look ‘under the bonnet’ of your own organisation’s culture and understand how to lead positive cultural improvement processes. We will unpack the technology of SafetyCircle to give you access to the “gold” that builds positive work health and safety (WHS) culture and leads to entire organisational cultural transformation.

Learning Outcomes

The learning environment will be embedded in a real high-risk workplace and involve site visits to collect information about the local safety culture and embed learnings.

Learning outcomes are to:

- Understand the knowledge, theories and methods relevant to transforming WHS culture.
- Understand the key components of successful WHS cultural transformation program.
- Build personal leadership skills in communication, engagement and work organisation.
- Apply tools that enable WHS performance to be made visible and measurable, and corrective actions that are responsible, achievable and timely.
- Create a plan to support the development of a strong, positive WHS culture and a robust WHS management system.

Presenters

Michael Roberts (Co-Creator of SafetyCircle; Director)

Dr Ben Brooks (SafetyCircle Researcher; Associate Professor University of Tasmania)

Martyn Bradfield (Co-Creator of SafetyCircle; Director)

Who should attend?

Executives serious about leading positive safety and health culture. All Workplace Leaders and WHS practitioners committed to making lasting positive change in the WHS management and culture of their organisation. Plus, individuals who see themselves one day becoming an internal SafetyCircle Coach or Consultant; working with many organisations.

(NB: This is the first step in the development pathway for becoming a SafetyCircle Coach.)

Positive Cultural Leadership

4 Day Intensive

How to lead people and organisations

SafetyCircle®

Emails and feedback from previous SafetyCircle Positive Cultural Leadership Intensives:

“Valuable experience - our organisation will benefit greatly from our participation. Recommend the opportunity to any organisation.”

“Brilliant course professionally run that has given me the skills and confidence to help everyone in my organisation to go home safe and well every day.”

“The diagnostic, safety culture discussion language and reinforcement of the SafetyCircle were some highlights. Total content of the workshop was fantastic.”

“I just wanted to say what a privilege it has been to share time with you, your colleagues and the other participants. What a fantastic bunch of people! I really enjoyed the paradigm-shift learnings and appreciated the open heartfelt support everyone gave me in my first steps into the WHS/SafetyCircle world. I think the Ultra-quality of everyone present is a tribute to the power of the concept and its potential to revolutionise the safety space (and thus reduce the unnecessary injuries and deaths that are occurring). I look forward to being part of this journey into the future.”
